Curriculum Intent	
<p>The PE at FHC is designed to offer a broad and balanced curriculum with our children’s enjoyment at heart. As the children progress from EYFS through to upper KS2, we want them to feel confident, well-equipped and inspired to succeed and progress their skills into high school. We believe our high-quality PE curriculum offers the opportunity for both physical development as well as, personal, social and emotional development, through the building of friendships; problem solving and; embedding values such as fairness and respect.</p> <p>The national curriculum for physical education aims to ensure that all pupils:</p> <ul style="list-style-type: none"> <li>• develop competence to excel in a broad range of physical activities</li> <li>• are physically active for sustained periods of time</li> <li>• engage in competitive sports and activities</li> <li>• lead healthy, active lives.</li> </ul>	
Purpose of Study	
<p><b>Understanding the world we live in</b></p> 	<p>Our children at FHC often come to school with little experience of sport and physical activity. We aim to inspire children to succeed and excel in their own physical and mental health through the participation in a variety of competitive and physically demanding activities. Children will develop an understanding of how to improve in different physical activities and sports alongside evaluating and recognising their own successes and the successes of others.</p>
<p><b>Linked to my Life</b></p> 	<p>We want our children to become confident participants in sport and build a sense of identity within a variety of sports. Children will embed values such as respect, sportsmanship and fairness, through opportunities to compete and collaborate with each other.</p>
<p><b>Practical Skills</b></p> 	<p>Our curriculum has an increased emphasis on healthy participation where we support children’s ability to make safe long-term decisions that they can take with them throughout their lives. Children will become physically confident in a way which supports their health and fitness; developing an understanding of the relationships between physical activity and its effect on the body. They will become increasingly competent and have opportunities to develop skills such as agility, balance and co-ordination. Children will perform dances and gymnastic routines independently and collaboratively for a range of audiences as well as swimming competently.</p>
<p><b>Knowledge</b></p> 	<p>Our children will begin their journeys by paying particular attention towards motor competence and fundamental movement skills that are categorised as: locomotor skills, such as running and jumping; stability skills, such as twisting and balancing and; manipulation skills such as throwing and catching. These skills will then be applied to demonstrate mastery and proficiency across a range of sports and physical activities. Our children will gain increased attention towards rules, strategies and tactics to be successful in sport.</p>

**Assessment and recording for long term knowledge retention:**

Children are assessed half-termly against the procedural and declarative skills for each individual sport. These are recorded and used to support future planning. Each lesson begins with a recap of learning in order to allow for the building of skills and knowledge throughout the term/year. Following a lesson, the children are reflective and discuss what learning has taken place to support their retention.
